Craft Instructions

## Natural Materials Cross

**Supplies**

- Twigs, up to 30-40cm in length
- Garden ties
- Leaves and flowers collected from the local area or fake flowers and leaves
- Other natural materials
- Scaps of ribbon or

that might be found on a walk e.g. pieces of sheep's wool

- Begin by grouping 4 or 5 longer branches or twigs together. These will form the vertical part of the cross.
- Use the garden ties to secure the branches together. Do this at either end and once or twice in the middle.
- Next choose 4 or 5 twigs that are half the length of the first set; these will form the horizontal part of the cross. Tie these branches using garden ties, as before.
- Place the two pieces of cross together at right angles, around two thirds of the way up the longer piece. Then
- To decorate, weave pieces of ribbon around or through the branches.
- Also tuck and weave the stems of real or pretend flowers, along with leaves, into the structure of the cross.
- Tie a thick piece of ribbon or fabric in a loop, going through the back of the cross, so that it can be hung up.
