

- In English:
We will be reading Philip Pullman's 'The Firework Maker's daughter' for the next five weeks which will link with our new topic 'Tremors'.
Then we will be finishing the year with 'The Stone Age Boy'.

- The Arts:
We shall be making and creating a model of a volcano using paper mache and mod roc. This will hopefully represent a real life volcano and we will look at different materials we could use to make it explode!

- In Maths:
For the next five weeks we will be moving on to our transition units, preparing the children to year 4 and working with four digit numbers. This will involve place value work, addition and subtraction.

- In PE:
In PE, we will be covering Athletics trying out a variety of different sports and practising for Sports Day. We will also begin to look at the game Rounders and what skills are needed to play the game.

- In Science:
This half term, we are continuing to finish our Plants topic which will see us complete an experiment to dissect a flowering plant. We will then move on to looking at different rocks and how they are formed, focussing on volcanic rock.

- History and Geography
We will be exploring how volcanoes are formed and looking at the Earth's layers. This will include researching the world's most dangerous volcanoes and locating them on a world map. Also, we will look at the story of Pompeii.

Learning Journey

Maltby Lilly Hall Academy - Year 3
Summer 2 - 2018
