BIG BATTERY HUNT

Dear Parents and Carers

Building on the success of our recent litter picking events and learning around the importance of recycling, we have decided to launch a campaign called the Big Battery Hunt. Over 600 million batteries are thrown away in UK homes each year and can take over 100 years to decompose!

Your child has been challenged to find and collect as many used batteries as possible, please help them do this. They can be as creative as they like by going to work spaces, places of worship, local businesses and the wider community to enlist everyone to help make sure that no battery ends up in landfill.

Your child has been supplied with a collection box, please get them to bring this into school when it is full so that we can add it to the main container. If we can fill the container by the end of May we will be entered into a prize draw to win a range of fantastic resources for school.

Please visit <https://nationalschoolpartnership.com/initiatives/bigbatteryhunt/> for more information about the campaign plus a break-down of all the prizes that the school and your child could win.

We hope you will support us in this and help to empower our children to drive change!

Happy hunting!

Yours faithfully

Mrs Jones
Eco, Healthy and Forest School Coordinator
