# British Science Week

## 11<sup>th</sup> – 20<sup>th</sup> March 2022

Dear Parents / Carers

This year as part of British Science week, we have decided to have a focused Science Day on **Wednesday 16<sup>th</sup> March** following the theme of the British Science Week which is '**Growth**'.

Throughout the day the children will have the opportunity to complete different STEM (Science, Technology, Engineering and Mathematics) activities based around this year's theme – Growth.

We would love it if your child could come dressed as someone influential from the world of STEM, for example: an astronaut, doctor, marine biologist, technician, scientist. During the day there will also be a focus on influential people within STEM - 'smashing-stereotypes', allowing our children to be inspired and understand that any of them could be influential in this world.

### Useful Websites:

<https://www.britishscienceweek.org/>

<https://www.britishscienceweek.org/plan-your-activities/smashing-stereotypes/>

<https://nustem.uk/stem-person-of-the-week/>

We look forward to seeing your children engaged in STEM during this day.
